About us

- WE CARRY OUT ORDERS IN THE SEGMENT OF **REPAIR AND INVESTMENT SERVICES**
- WE OPERATE IN THE **CHEMICAL AND ENERGY INDUSTRIES**
- WE EMPLOY **150** QUALIFIED AND EXPERIENCED EMPLOYEES
- WE HAVE SPECIALIZED EQUIPMENT FOR **DIAGNOSTICS, REPAIRS OF MACHINES AND DEVICES**

We provide the following services

- Repairs of installations, devices and industrial fittings
- 24/7 technical maintenance of industrial installations
- Machining
- Energy, mechanical and technical consulting services
- Repair and service of machines

Execution, assembly of apparatus and industrial equipment

- Pressure, non-pressure and storage tanks, mixers, filters, columns and silos
 - Heat exchangers and process reactors
 - Specialized steel structures, furnace structures
 - Technological and transmission pipelines
 - Coils, conveyors

We provide technical advice as also constant contact with qualified engineering and technical staff. We cooperate with many design offices.

Qualifications

issued by the Office of Technical Inspection

- Manufacture of pressure and low pressure tanks
- Execution of steam and water boilers, permanent pressure tanks, technological pipelines
- Modernization of boilers, pipelines, tanks
- Production of elements of pressure and non-pressure devices
- Production in the field of assembly of pressure and non-pressure tanks

Necessary ISO certificates, e.g. processes for welding metal materials according to PN-EN ISO 3834-2:2017 in the field of carrying out load-bearing steel structures and pressure equipment

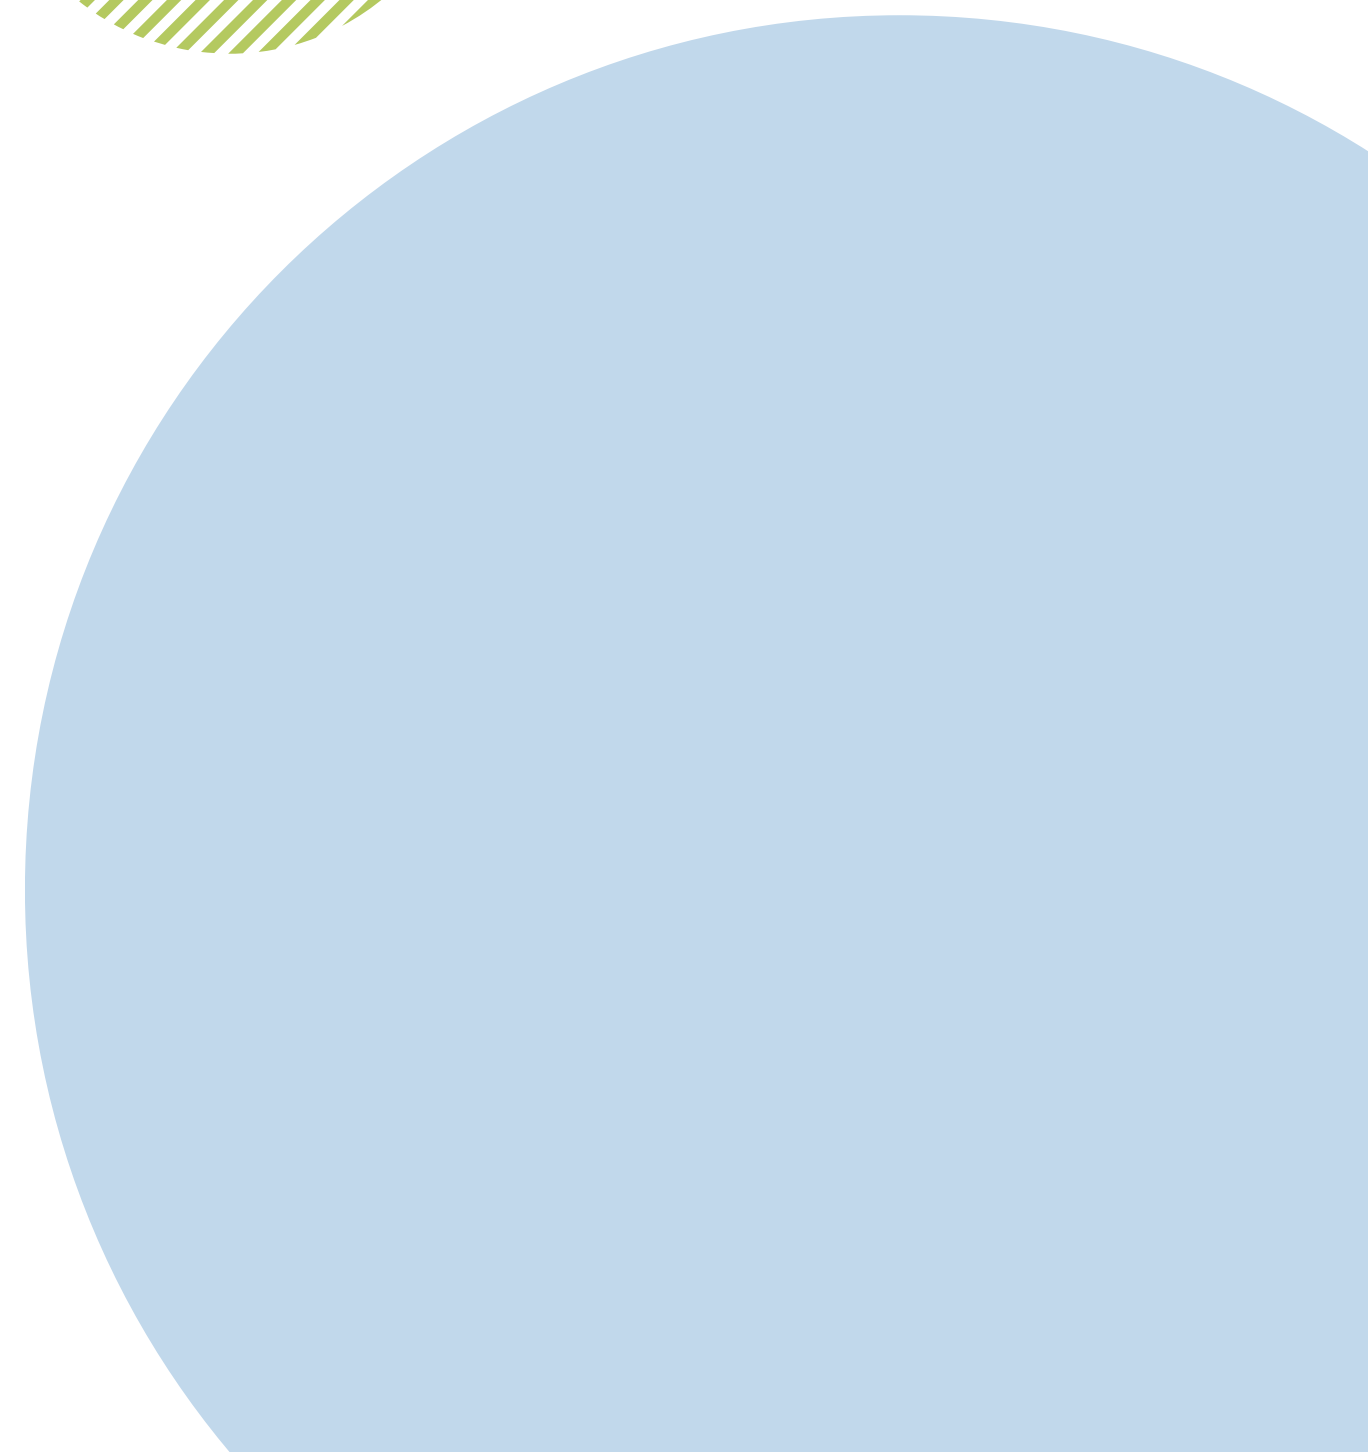

The granted authorizations allow the production of apparatus and devices in accordance with the European standards EN-13445, EN-12952, EN-13480 and the PED Directive 2014/68/EU
